

# NP2X – Top Level DX and Contest Station

*Excellent score history as single or multi-op station*

The NP2X station, located on the beautiful island of St. Croix in the US Virgin Islands is for sale. This station has produced winning scores for a decade plus and qualified its operator for two WRTC competitions. Wonderful Caribbean propagation is a joy to experience, including long-path and trans-equatorial propagation (TEP). As a US Territory, many conveniences are available here. (USPS, Amazon, Medicare, etc.). No passport is needed for US citizens / residents to travel here.
