- 19:41:18 From Lee WA0UIG IA_SM: Hi Debby good to see you again!
- 19:41:27 From Terri Lee KEØRZA: Excellent presentation! We loved the story and you walking us through why on earth we still have an old tv in our basement!
- 19:41:59 From Patrick Muscatine WØPCD: Excellent presentation. Have a great night everyone. :) 73.
- 19:42:04 From Mike K9NH Tennessee: all new vehicle weights are not lead....they are mandated by the EPA to be zinc
- 19:42:20 From Donna Whisnant (KDØSVE), Waterloo, IA: Some of us ladies also build Musical Tesla Coils :-)
Great presentation! I learned a few new tricks (even for this old dog)... p.s. I'm still using my old tube TV...
- 19:42:27 From Virginia NV5F - Texas: I have a VCR and beeswax!!
- 19:43:19 From Tom Horne W3TDH MDC SECTION: When is a mobile a fixed station under the field day rules?
When it is feeding an antenna that is not mounted on the vehicle and is getting its power from somewhere other than the vehicle's engine. Pup generator and sling shot dipole and you can make good use of the 27-hour field day rule.
- 19:43:43 From Donna Whisnant (KDØSVE), Waterloo, IA: My musical coil playing at church a couple years ago:
