

1. Karl G. Long, KG1L, Rest Stop 2
2. Arrived and checked in with NCS at 0800. Secured communications at 1143.
3. Rest stop captain: Michael Machesney, 920-445-1975
4. First rider arrived at 0920. bib number 672.
5. When I arrived, no one was there. The rest stop captain arrived at 0810, followed closely by a truck with canopies, food, tables, chairs and some water at 0815. Another truck was supposed to bring the rest of the water.  
  
0815 reported "water" truck not there yet. Rest stop captain also called on his cell phone.  
0920 the water truck arrived, right behind the first rider.
6. Comments and recommendations.

With only minor difficulty, I was able to communicate from Henson Creek Park using an HT with standard rubber duck antenna. When needed, only a relocation of 25 feet or less was adequate to improve the communications.

Other than the water truck issue, everything went smoothly.
