Direct Western Union Service on Premises Telex: 25-4051

Introduction

The Teletype Equipment Price Catalog provides product descriptions and prices for representative sets of equipment, Teletype standard commercial components, bulletins, sales promotion literature, export packing and, where applicable, assembly charges for specific sets. The contents of this catalog are subject to the enclosed Standard Sales Terms and Conditions dated February, 1969.

The Catalog consists of two volumes divided into four groups:

Group I - Product Description Sheets		Volume I
Group II - Equipment Set Components		Volume II
Group III - Equipment Sets		Volume II
Group IV - Bulletins, Sales Promotion Literature, Export Packing and Optional Assembly		Volume II

Group I includes a general index by sections and its appropriate section indexes. The sections are separately identified by title and the section number appears in the upper left and lower right corner of each page. The section indexes are followed by a list of effective product description sheets (P.D.) which, in turn, is followed by the P.D. Sheets in ascending numerical order.

Groups II and III include a general index by sections, a list of effective pages for each group, and the appropriate independent sections. The sections are complete within themselves; they are separately identified by title and section numbers and the pages of each section are numbered consecutively, independent of other sections.

To locate specific information refer to the general index of a specific group and to the appropriate section index or section.

Group IV consists of Exhibits A, B, C and D. Exhibit A contains prices for commercial bulletins. Exhibit B contains prices for sales promotion literature. Exhibit C contains export packing charges for sets covered in the product description sheets and optional assembly charges where applicable. Exhibit D contains export charges for our standard commercial products with Government assigned nomenclatures. A list of effective pages precedes Group IV.

Certain sets in Group I are designated assembled. This designation indicates that, where physically possible, the components of a particular set will be assembled together prior to shipment.

STANDARD SALES TERMS AND CONDITIONS

(The following are applicable to all transactions except U.S. Government end-use. Standard Terms and Conditions relating to the latter will be supplied on request.)

1. PRICE, PAYMENT AND DELIVERY

- A. Prices are net f.o.b. carrier's equipment, our Skokie, Illinois plant (ex-factory, for export transactions); they do not include installation or maintenance.
- B. Orders which call for deliveries beyond twelve months from the first day of the month following the receipt thereof must be specifically accepted in writing by us. Any deliveries made pursuant to rescheduling of an original order, at your request, shall be at our most-favored-customer price then in effect with respect to any such deliveries made after twelve months from the first day of the month following receipt of the original order.
- C. Invoices dated during any month are due and payable 30 days from date (60 days, in U.S. funds, outside continental North America) unless your order specifies twentieth of the month following date of invoice.
- D. If credit has not been established with us, domestic terms will be c.o.d. or cash in advance and export terms will be irrevocable L/C on The Northern Trust Company, Chicago, Illinois, or, for orders under \$500.00, S/D on The Northern Trust Company. Such L/C or S/D must be in the minimum amount of the purchase price of all items ordered, plus any other charges made by us; it may, at your option, also make provision for charges and fees payable to others.
- E. Delivery for export will be made in the continental U.S. to a freight forwarder designated by you, whose responsibility it will be to make all export arrangements. Unless you expressly designate such a freight forwarder, you will be deemed to have authorized us to select a forwarder so to act on your behalf.

2. TAXES

Prices do not include any sales, use, excise, or similar taxes. These will be billed and paid as a separate item on the invoice.

3. PATENTS

A. PATENT INFRINGEMENT

With respect to any article furnished by us, we will at our own expense defend all suits alleging infringement of any United States patent by reason of the use or resale of said article for the purposes furnished, and will save you harmless from all expenses of defending said suits and from all payments which by final judgments therein you may be compelled to pay to the complainant as profit, damages, or costs on account of such infringement. If such use or resale shall be prevented by permanent injunction in any such suit, we will in addition, at our option either (1) replace said article, (2) modify it so that it will not infringe, (3) procure without cost to you the right to continue to use and resell, or (4) remove the infringing article and refund to you the amount paid to Teletype therefore, less a reasonable allowance for use, damage, and obsolescence. All of our obligations recited in this paragraph are on the condition that we be given immediate written notice of all claims of infringement and full authority to dispose thereof. In connection therewith you agree to furnish such reasonable assistance as we may request. In any event, however, our obligation shall not apply to any combination of said article with anything not furnished by us, and also shall not apply to any infringement arising out of compliance with your specifications. Our liability shall be limited to the obligations expressed in this paragraph.

TELETYPE CORPORATION

B. NO IMPLIED LICENSE

The furnishing of any article does not convey any license, other than such as may be implied by law, to use the same in any patented system or combination.

4. GUARANTEE

We guarantee that everything supplied by us will be free from defects of workmanship and material and that, on receipt of notice from you, we will remedy any actual defects by, at our option, repair, replacement or allowing return for full credit. In no event shall anything be returned without express authorization. This paragraph states our entire obligation for defects.

5. TECHNICAL LITERATURE

One copy of each applicable technical bulletin and/or specification will be furnished, no charge, with each set of equipment. Requests for additional copies should be addressed to our Equipment Sales Service Section.

6. CONFIRMING ORDERS

All confirming orders must be clearly marked, otherwise we will assume no liability for duplicate shipments.

7. PACKAGING, PACKING AND MARKING

A. Our prices include only our standard commercial packaging, packing and marking for domestic shipment.

B. Prices for special and export packaging, packing and marking will be quoted upon request.

8. ROUTING

Shipment will be made the most economical way unless otherwise directed in writing.

9. DELIVERY LOSS AND DELAY

Risk of loss is on customer ex-factory, Skokie, Illinois. Delivery schedules are subject to delays caused by fire, flood, wind storm, and other acts of God, and to strikes, riots, and civil commotions.

10. MANUFACTURING, INSPECTION AND TESTING INFORMATION

A. Nothing furnished hereunder is subject to test or inspection at our plant by the customer.

B. We will not furnish manufacturing drawings, information, or samples of our products.

11. RETURN OF EQUIPMENT OR PARTS NOT COVERED BY PRODUCT GUARANTEE

Prior written authorization must be given before any equipment or parts are returned for credit or repair.

12. TELETYPE TRAINING CENTER

Teletype Corporation operates a tuition-free training center for instruction of key customer personnel in the maintenance of Teletype equipment. For details, please write to:

Teletype Corporation Technical Training Center
201 North Wells Street
Chicago, Illinois 60606

Telephone: (312) 222-5950

<u>SECTION 11. High Speed Tape Punch Sets</u>	<u>P.D. No.</u>
A. <u>5 and 8-Level, Heavy Duty</u>	
Perforates 6, 7 or 8-Levels - 60 cycle synchronous motor unit (BRPE).	5
Same as P.D. 5 except w/o cover (BRPE).	5A
Same as P.D. 5 except for 63.3 cps (BRPE).	5B
Same as P.D. 5B except w/o cover (BRPE).	5C
Perforates 6-Levels - Advanced feed hole - 60 cycle synchronous motor unit (BRPE).	5D
Perforates 5 or 8-Levels - 60 cycle synchronous motor unit. (BRPE)	5E
Same as P.D. 5 except 50 cycle synchronous motor unit. (BRPE)	5F
Perforates 5-Levels only - 60 cycle synchronous motor unit (BRPE).	6
Perforates 5-Levels only - 50/60 cycle series governed motor unit (BRPE).	7
Perforates 6, 7 or 8-Levels - 50/60 cycle series governed motor unit (BRPE).	8
Perforates 5-Levels only (Tape Notching O and 6th. Level Punch Pins) - 60 cycle synchronous motor unit (BRPE).	99
Perforates 5 through 8-Levels - 60 cycle operation - 19" Relay rack mounting parts - Electronic control package (DRPE).	141
Perforates 6-Levels - Advanced feed hole - Floor cabinet - 60 cycle operation - Electronic control package (DRPE).	141A
Perforates 5 though 8-Levels - 50 cycle operation - Floor cabinet - Electronic control package (DRPE).	141B
Same as P.D. 141 except 50 cycle operation (DRPE).	141C
Same as P.D. 141B except 60 cycle operation (DRPE).	141D
Same as P.D. 141A except with 19" Relay rack mounting parts instead of Floor Cabinet (DRPE).	141E
