IN THE EVENT OF AN ACTIVATION

1.	Make sure your home and family are secure before responding to any request for help.
2.	If instructed, tune to the frequency indicated by the phone call or email. Otherwise, tune to 146.985 and check into the Net.
3.	Add the last minute items to your 'go-kit' and make sure you have directions to your deployment location and the necessary identification. Fill vehicle with gasoline.
4.	Report as indicated. Remember that you may be the first operator on scene. Be polite and helpful and if possible, choose the best tactical location to set up a station.
5.	If asked to move by a site manager, MOVE. If you can ascertain the reason for the move, please note it and pass it on to the EC for the after action report.
6.	Always remember to get permission to "check-out" of a net, even if it is for a bathroom break. Never leave your radio without telling the NCS.
7.	At the end, of activation return the operating space back to 'normal'. Make sure the site manager knows you are leaving, Check out of the Net unless you have been instructed to leave.

--	--

CALVERT COUNTY ARES OPERATIONS

STANDARD OPERATING INSTRUCTION

1. Any CALV ARES Station can initiate the CALV ARES NET if the need exists.
2. Initiate a Resource Net to pool resources by following the

CALVERT ARES EMERGENCY ACTIVATION NET SCRIPT

3. Using their best judgment, CALV ARES Stations can evaluate a situation and initiate Tactical Operations.
4. Attempt to contact CALVERT ARES or RACES Leadership

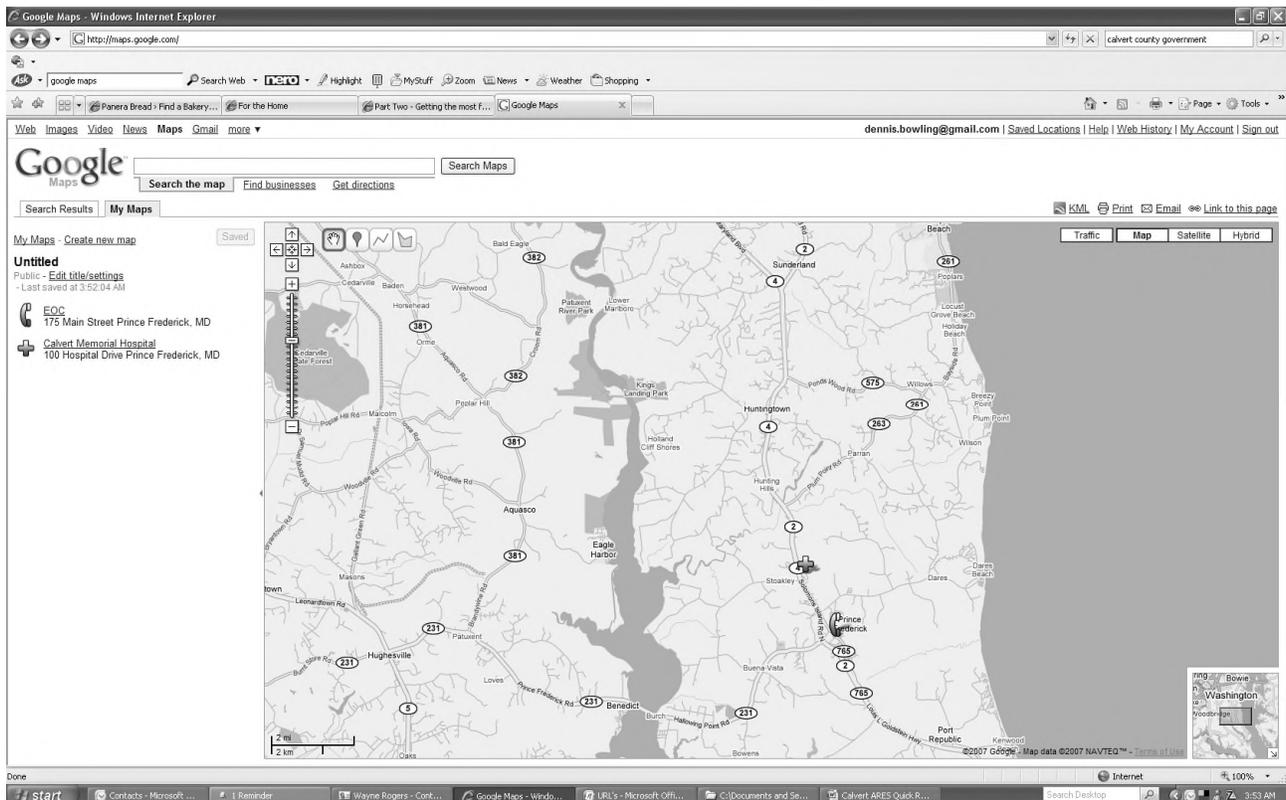

CALV ARES EMERGENCY ACTIVATION NET SCRIPT

- CQ NET, CQ NET, CQ NET, THIS IS **YOUR CALL** (phonetically), ACTIVATING THE CALVERT COUNTY ARES NET
- NET CONTROL WILL BE **YOUR CALL** AND MY NAME IS **YOUR NAME**
- ASK FOR BACKUP NCS AND ACKNOWLEDGE
- REMINDER THIS IS A DIRECT NET AND ALL TRAFFIC MUST BE ROUTED THROUGH NET CONTROL
- (GIVE A BRIEF SITUATION REPORT WHY THE NET IS BEING CALLED)
- I WILL NOW TAKE CHECK-INS, WHEN CHECKING IN PLEASE KEY MIKE AND SAY “THIS IS **CALLSIGN** AND UNKEY. IF YOU DID NOT DOUBLE THEN SAY YOUR CALL, NAME, YOUR LOCATION AND IF YOU ARE MOBILE I WILL FIRST WITH EMERGENCY TRAFFIC, THEN MOBILE, CALVERT RACES/ARES OFFICERS, CALVERT ARES STATIONS AND THEN ALL OTHER STATIONS
- ANY STATION WITH EMERGENCY TRAFFIC PLEASE CALL NOW
- MOBLE STATIONS PLEASE CALL NOW
- CALVERT COUNTY ARES/RACES OFFICERS PLEASE CALL NOW
- TAKING CHECKINS FOR CALVERT COUNTY ARE STATIONS PLEASE CALL NOW
- ARE THERE ANY OTHER STATIONS CALL PLEASE CALL NOW
- (LOG CHECKINS: CALLSIGN, NAME, LOCATION AND IF MOBILE)
- (AFTER ACKNOWLEDGING ABOUT TEN CHECKINS GIVE A BRIEF SITUATION REPORT WHY THE NET IS BEING CALLED AND ASK FOR MORE CHECKINS)
- ASK FOR LIAISON STATION FOR MEPN, 3820, if needed
- ASK FOR LIASONE STATION FOR CENTRAL REGION NET AT 147.105 PL102.7, if needed
- ASK FOR LIAISON STATION FOR WINLINK, If needed
- (ATTEMPT TO CONTACT CALVERT COUNTY ARES/RACES LEADERSHIP)
- (GIVE UPDATED SITUATION REPORT EVERY 10 MINUTES OR AS NEEDED)
- (CONTINUE IN THIS FASHION)
- AT THIS TIME WE WILL BE CLOSING THE NET AT **CURRENT TIME**
- THIS IS **YOUR CALL** RETURNING NET TO NORMAL AMATEUR USE. WE WOULD LIKE TO THANK THE CALVERT AMATEUR RADIO ASSOCIATION FOR THE USE OF THEIR REPEATER.
- THE NET IS NOW CLOSED, **YOUR CALL**

Traffic Handling Quick Reference

Group One--For Possible "Relief Emergency" Use

ONE--Everyone safe here. Please don't worry.

TWO--Coming home as soon as possible.

THREE--Am in ____ hospital. Receiving excellent care and recovering fine.

FOUR--Only slight property damage here. Do not be concerned about disaster reports.

FIVE--Am moving to new location. Send no further mail or communication. Will inform you of new address when relocated.

SIX--Will contact you as soon as possible.

SEVEN--Please reply by Amateur Radio through the amateur delivering this message. This is a free public service.

EIGHT--Need additional ____ mobile or portable equipment for immediate emergency use.

NINE--Additional ____ radio operators needed to assist with emergency at this location.

TEN--Please contact _____. Advise to standby and provide further emergency information, instructions or assistance.

ELEVEN--Establish Amateur Radio emergency communications with ____ on ____ MHz.

TWELVE--Anxious to hear from you. No word in some time. Please contact me as soon as possible.

THIRTEEN--Medical emergency situation exits here.

FOURTEEN--Situation here becoming critical. Losses and damage from ____ increasing.

FIFTEEN--Please advise your condition and what help is needed.

SIXTEEN--Property damage very severe in this area.

SEVENTEEN--REACT communications services also available. Establish REACT communication with ____ on channel ____.

EIGHTEEN--Please contact me as soon as possible at _____.

NINETEEN--Request health and welfare report on _____. (State name, address and telephone number.)

TWENTY--Temporarily stranded. Will need some assistance. Please contact me at _____.

TWENTY ONE--Search and Rescue assistance is needed by local authorities here. Advise availability.

TWENTY TWO--Need accurate information on the extent and type of conditions now existing at your location. Please furnish this information and reply without delay.

TWENTY THREE--Report at once the accessibility and best way to reach your location.

TWENTY FOUR--Evacuation of residents from this area urgently needed. Advise plans for help.

TWENTY FIVE--Furnish as soon as possible the weather conditions at your location.

TWENTY SIX--Help and care for evacuation of sick and injured from this location needed at once.

**EMERGENCY/PRIORITY MESSAGES
ORIGINATING FROM OFFICIAL SOURCES MUST
CARRY THE SIGNATURE OF THE ORIGINATING
OFFICIAL.**

Group Two--Routine messages

FORTY SIX--Greetings on your birthday and best wishes for many more to come.

FIFTY--Greetings by Amateur Radio.

FIFTY ONE--Greetings by Amateur Radio. This message is sent as a free public service by ham radio operators at _____. Am having a wonderful time.

FIFTY TWO--Really enjoyed being with you. Looking forward to getting together again.

FIFTY THREE--Received your _____. It's appreciated; many thanks.

FIFTY FOUR--Many thanks for your good wishes.

FIFTY FIVE--Good news is always welcome. Very delighted to hear about yours.

FIFTY SIX--Congratulations on your _____, a most worthy and deserved achievement.

FIFTY SEVEN--Wish we could be together.

FIFTY EIGHT--Have a wonderful time. Let us know when you return.

FIFTY NINE--Congratulations on the new arrival. Hope mother and child are well.

SIXTY--Wishing you the best of everything on _____.

SIXTY ONE--Wishing you a very Merry Christmas and a Happy New Year.

SIXTY TWO--Greetings and best wishes to you for a pleasant _____ holiday season.

SIXTY THREE--Victory or defeat, our best wishes are with you. Hope you win.

SIXTY FOUR--Arrived safely at _____.

SIXTY FIVE--Arriving _____ on _____. Please arrange to meet me there.

SIXTY SIX--DX QSL's are on hand for you at the _____ QSL Bureau. Send _____ self addressed envelopes.

SIXTY SEVEN--Your message number _____ undeliverable because of _____. Please advise.

SIXTY EIGHT--Sorry to hear you are ill. Best wishes for a speedy recovery.

SIXTY NINE--Welcome to the _____. We are glad to have you with us and hope you will enjoy the fun and fellowship of the organization.

“Hotel” Codes

HXA--(Followed by number) Collect landline delivery authorized by addressee within....miles. (If no number, authorization is unlimited.)

HXB--(Followed by number) Cancel message if not delivered within....hours of filing time; service originating station.

HXC--Report date and time of delivery (TOD) to originating station.

HXD--Report to originating station the identity of station from which received,

plus date and time. Report identity of station to which relayed, plus date and time, or if delivered report date, time and method of delivery.

HXE--Delivering station get reply from addresses, originate message back.

HXF--(Followed by number) Hold delivery until....(date).

HXG--Delivery by mail or landline toll call not required. If toll or other expense involved, cancel message and service originating station.

ARRL Recommended Precedence

Please observe the following ARRL provisions for PRECEDENCES in connection with written message traffic. These provisions are designed to increase the efficiency of our service both in normal times and in emergency.

EMERGENCY--Any message having life and death urgency to any person or

ROUTINE--Most traffic in normal times will bear this designation. In disaster situations, traffic labeled Routine (R on CW/RTTY) should be handled last, or not at all when circuits are busy with higher precedence traffic.

Note--the precedence always follows the message number. For example, a message number may be 207R on CW and "Two Zero Seven Routine" on phone.

group of persons, which is transmitted by Amateur Radio in the absence of regular commercial facilities. This includes official messages of welfare agencies during emergencies requesting supplies, materials or instructions vital to relief of stricken populace in emergency areas. During normal times, it will be *very* rare. On CW/RTTY, this designation will *always* be spelled out. When in doubt, do not use it.

PRIORITY--Use abbreviation P on CW/RTTY. This classification is for a) important messages having a specific time limit b) official messages not covered in the emergency category c) press dispatches and emergency-related traffic not of the *utmost* urgency d) notice of death or injury in a disaster area, personal or official.

WELFARE--This classification, abbreviated as W on CW/RTTY, refers to either an inquiry as to the health and welfare of an individual in the disaster area or an advisory from the disaster area that indicates all is well. Welfare traffic is handled only after all emergency and priority traffic is cleared. The Red Cross equivalent to an incoming Welfare message is DWI (Disaster Welfare Inquiry).

The Maryland-District of Columbia (MDC) Emergency Response Plan establishes guidelines and requirements for activation of MDC ARES® and NTS/NTSD resources, coordination with RACES operations in the MDC jurisdictions, and joint operations during local, regional,

Section-wide, and multi-state emergencies.

The Amateur Radio Emergency Service (ARES®) and National Traffic System (NTS) are parts of the American Radio Relay League (ARRL) Field Services organization. ARES® provides emergency communications to the public and many served agencies. The NTS provides the Section-wide and nation-wide message handling manual net system and its parallel digital system, NTS Digital (NTSD). Both ARES® and the NTS/NTSD also utilize the global amateur radio Winlink 2000 (WL2K) radio-email system.

[↑ Return to Top of Page](#)

ERP ORGANIZATION

Communications nets in MDC are organized at several levels during emergencies:

- 1) **LOCAL:** ARES®/RACES nets operate within each of the county and city jurisdictions as needed to serve government and private relief agencies and to provide public welfare messaging services. These nets are managed by the local ARES® Emergency Coordinator (EC).
- 2) **REGION:** Three Regional Nets may be activated on wide-area 2 meter repeaters to provide jurisdiction intercom and, with liaisons, the means to move message traffic across the Section (the Western, Central and Eastern Regions shown in Fig. 1). These nets have liaisons from the jurisdictions, between each other, and with the MDC Section level nets. These nets are managed by the Section staff and manned by local jurisdiction amateurs.

- 3) **SECTION:** Section and Local NTS nets may be activated (listed under “NETS” in Fig. 1 and shown in following sections). These nets also run on a daily schedule as part of the NTS/NTSD. These nets are managed by the Section Traffic Manager (STM) daily and jointly by Section staff during emergencies.

During ERP activation these nets provide umbrella coverage for messaging between jurisdictions and Regions, with other Sections, with agencies inside and outside MDC, and with the national NTS/NTSD. They have liaison with the Region Nets, between each other, and directly from jurisdictions via Health and Welfare Local stations (HWLOCs). HWLOC stations in the jurisdictions provide separate welfare and agency messaging services to and from the Region nets, Section NTS nets and digital services which enables them to bypass other nets which might be busy with local or regional emergency related traffic. The Section NTS nets also provide messaging for Section administration and ARESMAT coordination.

Additional services are provided by stations at all levels connected for radio-email to the global Winlink 2000 (WL2K) system and for AirMail Direct Transfer messaging. Stations also connect with regular packet radio, repeaters accessed via Echolink, amateur TV, APRS and other modes as needed. All these stations may liaise with the local jurisdiction, Region and Section nets as required.

EMERGENCY NET OPERATIONS

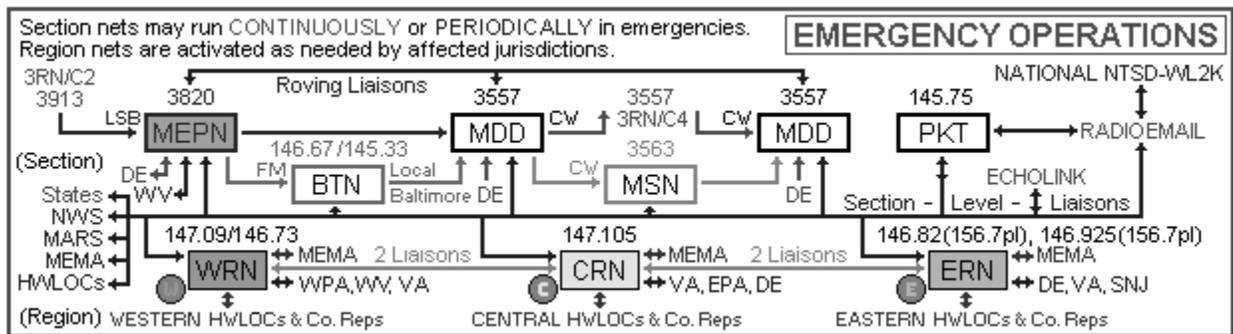

Figure 3: MDC Emergency Net Operations

ERP LIAISONS

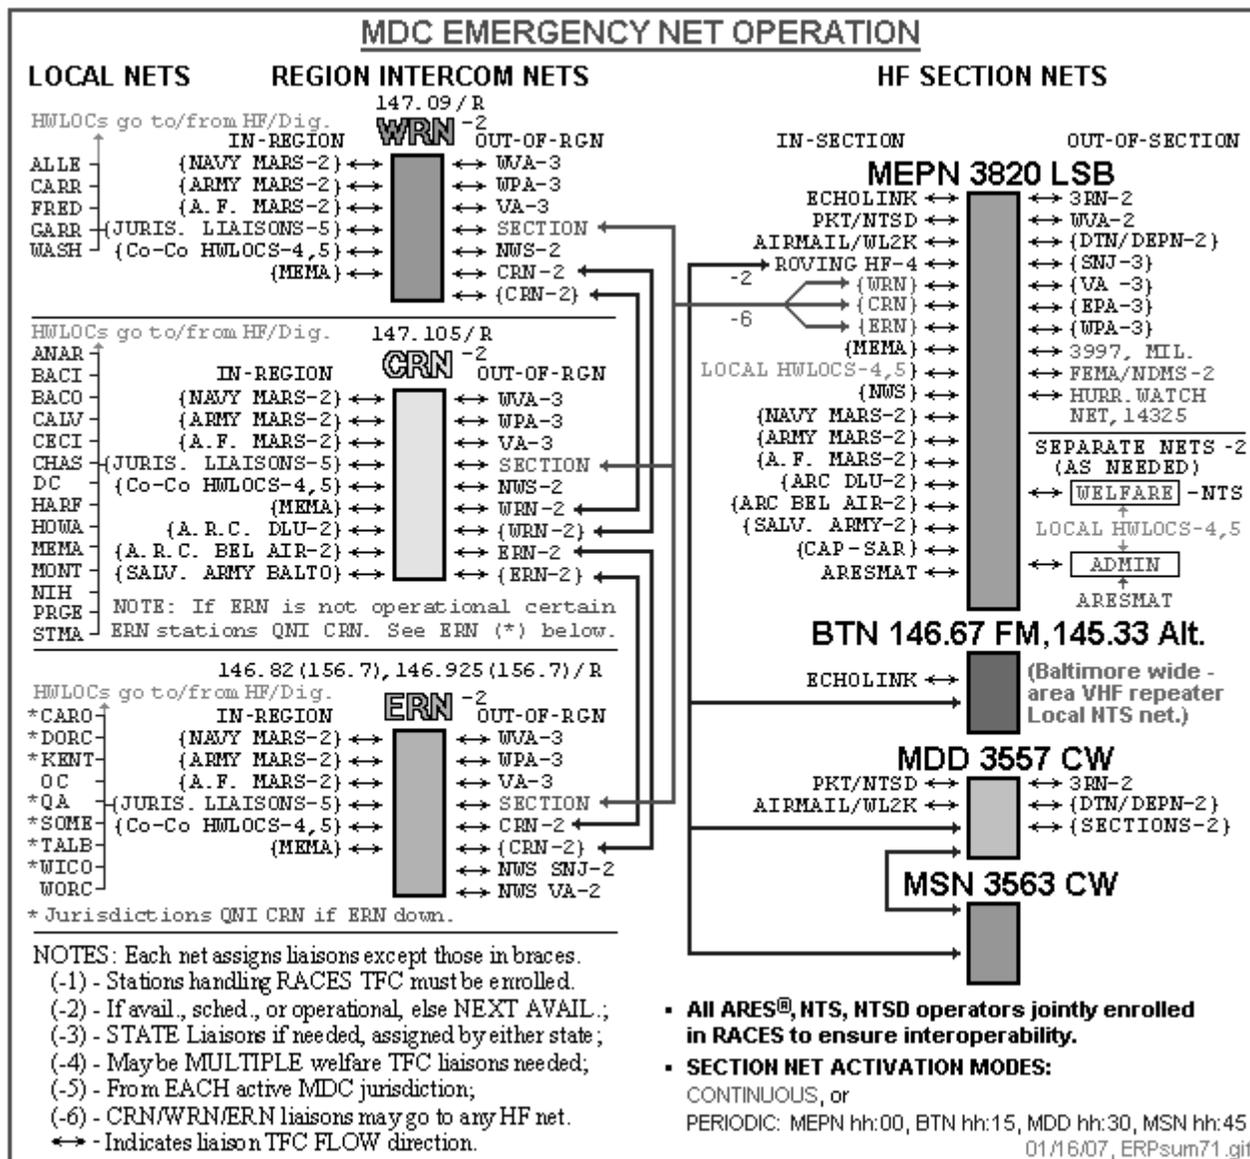

Figure 4: ERP Liaisons, Local - Region - Section - External

↶ Return to Top of Page

WL2K - NTSD EMERGENCY NOTES

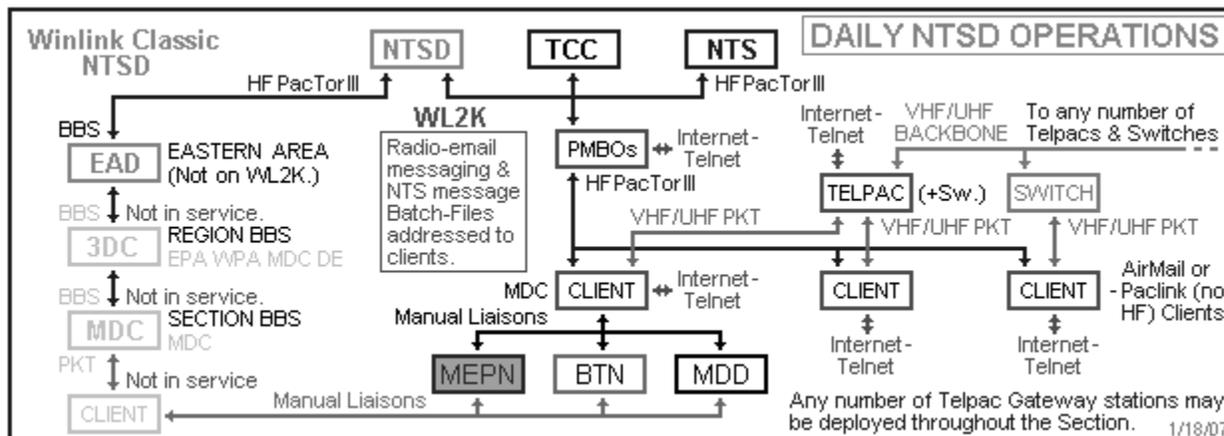

Figure 4: Winlink 2000 (WL2K) and NTSD Diagram

The global Winlink 2000 (WL2K) network is used by NTS/NTSD and ARES® for transporting radio-email formatted messaging including Batch-Files of NTS Radiograms. WL2K permits sending messages (with multiple addressees, copies, and binary attachments) to and from the public internet as well as to clients at [call sign]@winlink.org or [Tactical Address]@winlink.org (for Paclink clients only). WL2K is a radio-email forwarding system, not a BBS system.

During emergencies stations deployed into the field may access WL2K with packet radio via local Telpac Gateway stations. To increase resilience during loss of infrastructure (telephone lines, data links, ISPs, etc.) radio backbone switches and/or digi-peaters may provide paths from clients in the "last mile" to functioning Telpacs or PMBOs elsewhere. HF PacTor (with AirMail) may also be used to reach outside of the "last mile" to PMBOs when VHF/UHF links are not available. Local ARES® PMBOs can sustain radio-email service between all radio connected clients without any need for a connection to the internet. AirMail clients can exchange radio-email directly between stations by radio.

Shelter clients can submit Batch-Files of Welfare messages directly to the NTS/NTSD via WL2K thus relieving the need for intermediate manual handling. Victims may also email home and get replies.

Officials linked to local WL2K client stations can send and receive radio-email over amateur radio from their own computers or networks - a major advance in amateur radio relevance in today's information-technology world. Deploying WL2K clients throughout the Section permits the exchange of radio-email between all ARES®/NTS and served agency clients thus ensuring total agency interoperability. (See the tutorial on basic WL2K topics on the [SM home page](#), General Information section.)
