Presentations

9:00 Virginia QSO Party Awards

Gordon NQ4K

The Virginia QSO Party Awards Ceremony is the opportunity for the Party sponsor, the Sterling Park Amateur Radio Club, and the many plaque sponsors to review the results of the contest and to recognize those who clearly demonstrated top operating skills. This year's Virginia QSO Party was held during the weekend of 17-18 March and tabulation of the results will have been completed just before the Manassas Hamfest. Plaques will be awarded to the top operators in 27 categories. In addition, all participants will be able to pick up certificates attesting to their participation in the Party.

10:30 Wireless Weather Station

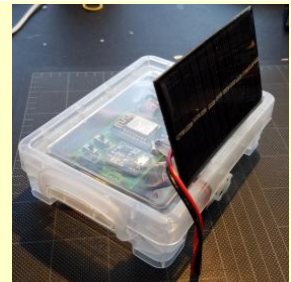

Karl W4KRL

Are you a member of Skywarn or maybe just enjoy tracking weather conditions as a hobby? Want to learn more about Arduino programming and the Internet of Things? Join us for Karl's presentation about his design of a solar powered wireless weather station. Want to build one of your own? Karl will be selling weather station kits from his table in the vendor hall. More information about the weather station and his other kits is available on Karl's web page <http://w4krl.com>

(Join us for Karl's presentation and enter a drawing to win one of his kits.)

11:00 Software Defined Radio

Bill Payne K5AE

Software Defined Radio, or SDR has been getting lots of attention in the ham radio press and is joining the vendors' top seller lists. Curious about what's happening under the hood? Want to see some of the most popular SDRs in action? Join us for a presentation by engineer and published author Bill Payne, K5AE.
