<p>Please provide any comments or recommendations you have regarding MVMA leadership, organization, focus, or direction.</p>	<p>Please ask any questions you believe should be addressed at this time.</p>
<p><b>Comment</b></p>	<p><b>Questions</b></p>
<p>--Willing to support Emcomm related Planning and Application, and possibly site acquisitions --Maybe Tactical Development once scope is understood</p>	
<p>The leader must provide direction, support to all, and unification.</p>	
<p>You have earned a rest, Bill.</p>	<p>Who is going to do the necessary to get money from XWARN and DARA?</p>
<p>i am a 78 year old ham, just sold the family business, live in Springfield, Ohio. Please consider me an observer, Most of your meetings are not convenient from my location.</p>	
<p>Scale back activities and installations until Technology and software work better</p>

While this is a hobby run by volunteers, it seems that one of our purposes should always be service to the community.	
GCARES Leadership must be an integral part of MVMA leadership	
Span of control, MVMA can be a central point of knowledge, testing planning assistance, but each area, County, City or Town ship should deploy/finance their operations and have mutual support agreement between each other/area.
