Reports/Discussions.

1. Persons responsible for chasing down presentations for next year:

 - b. 1 May – Tom, N4MEO
 - c. 10 July – Gil, W1RG
 - d. 4 Sep – Pete, N8PR
 - e. 6 Nov – Mark, K2AU
 - f. 8 Jan 2020 – John, K2SHA
2. Mark suggested “ham games” for club meetings. Pete suggested the “CW and/or SSB pileup call sign copy exercises”.
3. Randy: the k4fk computer is fine, new LoTW certificate, uploaded entire log. Need 3 or 4 more for Honor Roll. Need ~18 more on 80 m for 5BDXCC. At 978 towards Challenge certificate.
4. Randy: the dipoles were out of tune for 160, 80, 40 m, and they interact. Now tuned. No 60 m dipole. After tuning, there is still much interaction with the guy wires. There are no resonant antennas (dipoles) for 30 or 60 meters. Pete and Randy will look to correct the situation.
5. Randy: we are getting ClubLog requests for “membership”. BoD agreed that we should not add “casual” members.
6. Randy and BoD want our members to upload QSOs to ClubLog regularly.
7. Ray: our ARRL SF SM has asked the BoD to waive membership fees for him. BoD agrees such an action would be contrary to the By-Laws. Kai: issue him a nice letter thanking him for his volunteer services on our behalf. Ray to let him know of our decision to not waive fees.
8. Mark, the QSL bureau project is progressing well.
9. Pete, DXCC rule 8 change to permit DX operations off shore in territorial waters.
10. Gill suggested we should promote Amazon Smile program naming ARRL as beneficiary.
11. Kai noted that the 2019 IEEE AP/URSI meeting will again have a strong Amateur Radio presence, as in 2018 and 2017. Will be promoting ham-student graduate projects, and license sessions.

John, K2SHA – [absent]

Tom, N4MEO – Davie Club to have radio event on Mt. Trashmore (Vista View Park).

Mark, K2AU – [absent]

Pete, N8PR – ARRL calendars, freebies available. There is a move to change Technician Class operating privileges: proposing 80, 40 and 15 m digital/CW operations, still under discussion. SFDXA show of hands – about 80% in support. Synopsis: it is intended to provide Technician Licensees with an “HF playground” to practice the HF skills needed to upgrade to the General Class license, sort of like the now-extinct Novice Class provided ‘back in the day’.

Committee Reports:

K4FK – Randy, N4QV, K4FK is good shape. Need just 12 more on 80m for 9-band DXCC; need 84 more for Challenge Award. Spent some time trimming the HF dipoles. Still no 30 m dipole. We discussed the need for a 1.5 kW tuner for the station. Pete and Randy pursuing the situation.
