

Fort Myers Amateur Radio Club

Brings you

The Modulator

The NEWS and VIEWS of
The Fort Myers Amateur Radio Club, Inc.
P.O. Box 061183
Fort Myers, FL 33906
Founded 1957
Visit our web site at www.FMARC.net

The Fort Myers Amateur Radio Club is a 501(c)3 approved non-profit organization of both the Federal Communication Commission (FCC), and internationally licensed radio operators who volunteer themselves and their communications experience and equipment in support of emergency and community services. Our club meets once a month at Riverside Community Center (at 3061 E. Riverside Drive, Fort Myers, FL 33916). We hold our General meeting on the last Tuesday of every month at 7:15pm

Friends, interested persons and Hams from all over meet for reports from all committee chairpersons, announcements of present and future activity, old business issues, any new business for the club, and a program for the meeting.

FMARC "LUNCH BUNCH"

Anthony's on the Boulevard

1303 Del Prado Blvd, Cape Coral, FL

Every Thursday, 11:30am

<http://anthonysontheblvd.com/wordpress/>

This is a wonderful opportunity to meet with fellow Hams, share a meal and camaraderie. Bring a guest! Bring a friend! It's also a great way to introduce individuals to the hobby who may be interested in becoming a ham.

See you there!

CLUB MEETINGS AND BASIC INFORMATION

VOLUNTEER EXAMINERS

Conduct testing for Amateur Radio FCC License application qualifications on the 2nd Thursday at 6:30pm at the NEW Emergency Operations Center on Ortiz Avenue.

BOARD OF DIRECTORS MEETING

The 2nd Tuesday of each month at the Riverside Community Center located at 3601 E. Riverside Dr. Ft Myers FL. at 7:00 PM. The purpose of this meeting is to discuss plans and issues for the club, as well as go over new business, old business and pending items. All members are encouraged to attend.

A.L.E.R.T.

The All Lee Emergency Response Team is looking for volunteer licensed ham radio operators. We need volunteers to man the shelters, hospitals, fire and police departments, and other critical facilities both during and after severe storms. If you would like to provide a much needed service to your community, contact

Steve Smith (W9GPI)

Lee County Emergency Coordinator
(920) 251-6249 or W9GPI@arrl.net

www.aresraces-leecountyfl.org

SWAP SHOP

A "gathering of Hams" and friends is on the 2nd & last Saturdays at noon at the clubhouse in Waterway Park located at 5820 Poetry Lane, North Fort Myers. Sell, swap and bargain.

GENERAL MEETING & PROGRAM

The LAST Tuesday of each month. Members, friends, and interested persons meet at Riverside Community Center located at 3061 E. Riverside Dr., Fort Myers, FL at 7:15 PM for reports from all committee chairpersons, announcements of present and future activity, old business issues, any new business for the club, and a program or presentation.

BASIC CLUB INFORMATION

THE MODULATOR

The Modulator is an organizational publication for the purpose of informing members of FMARC of educational and training opportunities, club events, relevant news articles, and a monthly calendar of daily activities, meetings and dates.

Submissions of articles and ad's for the Modulator should be sent as early as possible, or by the ALERT in person meeting date each month. Feel free to call for any questions, email to KJ4OYP@hotmail.com with 'MODULATOR' as the subject. Or send in by mail to:

FMARC attn: Brittany at P.O. Box 061183, Fort Myers, FL 33906

Every member of FMARC is invited to submit articles for the Modulator.

PRESIDENTS MESSAGE

MARCH 2015

In the aftermath of our own Hamfest, we sometimes forget that this is the “Hamfest Season” for a lot of other clubs. Most if not all of the upcoming events will be visited by some of our club members, and they may even “Wave the Flag” so to speak, by displaying our new Hamfest 2016 banner and passing out flyers advertising it. And our FMARC Trifold to promote our club and activities. The biggest and most recent Hamfest we were set up at was, of course, Orlando Hamcation. There were several club members in attendance, to man the FMARC table, talk with vendors, and promote interest in coming to see our presentation next January. Thanks to everyone who helped!!

The position of Hamfest Committee Chairman for 2016 has been decided. Thanks to Larry Zimmer W4LWZ for accepting this challenge. I’m sure we will continue to build our Hamfest this year under Larry’s guidance. Thanks go to Richard Carlone KC4RAC our 2015 Hamfest Committee Chairman, for all his hard work and efforts, in making our 2015 Hamfest such a success!

Buckingham is coming soon! This special event will be at Buckingham Airfield (Lee Co Mosquito Control) March 24, 25, 26 and is a lot of fun!! Come out and operate, log, or just hang out. Contact Stella Gurka WB2FAU for further info.

Our Annual Picnic is right after Buckingham, on March 28th. contact Brittany KJ4OYP for more info!! Welcome to all our “Seasonal Hams”! It’s a bit warmer here and I’m sure you are enjoying the difference! It’s a pleasure hearing you on the repeaters and seeing you at our functions. I think a record number of attendees at the “Lunch Bunch” has been reached (or will be) and the new as well as remembered faces are very evident.

Don’t forget that we have a Skills Day scheduled for next month (April) and any ideas on what you would like to see presented are very helpful. If there is something you can display or teach, please contact any of the officers to get placed on the list.

Be Safe and Good DX !!

-- Tom AC4TM

SECRETARY MINUTES

FMARC General Meeting for 01/27/2015

Meeting began: 7:20pm

Visitors: Tom W9QI, visiting. Ryan W9RMA, visiting. Mel WA4CFT, renewed member. Frank NG1J new member.

Health & Welfare: Norm Cherry, N3CF passed away last Tuesday. He was a very valuable member of the SWFTN, ALERT and FMARC.

Treasurer’s report: Bob turned in his treasurer’s report, as well as taking 50/50 drawings and went over Hamfest financials, where we made a profit! Thank you to everyone for their support and help!!

Secretary’s report: 2015 dues are due by March 1st or you’ll be temporarily dropped from the roster. The modulator is late this month due to personal issues Brittany has going on. We have the new 2015 membership application being attached to the Modulator. It will also be in March Modulator (end of February) for those who wish to send in dues. Please remember, you can also pay your dues online via PayPal on www.FMARC.net **Minutes continue on the next page...**

SECRETARY MINUTES CONTINUED

Committee reports: Brittany (KJ4OYP) for Social Activity: Getting picnic date set up. It will be on March 28th, at Paul Sanbord Park. Please see additional notice/information in the Modulator regarding what you can do to help by bringing something!! Brittany (KJ4OYP) for Modulator: Unfortunately it is late this month, I have some things going on at home that have prevented my time for the Modulator. Charles (KI4GED) for Swap Shop: second and last Saturday every month. Joe (N3NAI) for Field Day / Property Control: There are lots of parts available at the Swap Shop! Come get your missing parts. Jan 31st next Swapshop at 11am. Steve (W9GPI) for ALERT: -- Meeting on the air every Wednesday night except for the 3rd Wednesday when we have our in-person meeting at the NEW EOC in Ft. Myers. - Still looking for new members for ALERT, applications are available. ALERT time has changed to 7pm for nets and meetings! Larry (W4LWZ) for Education: Currently in the middle of a general class, we have 8 people in it. We'll finish that up in the early part of March, following with a tech class. Send him an email. W4LWZ@arrl.net Larry (W4LWZ) for W4LX trustee: "It's still there, still works and the license is still valid until 2017!" Laing (NT4TS) for Contesting: Last weekend was Winter Field Day in Naples, which has been going on maybe 3 years now. They had 6 people present, for a total of 218 Q's. The winner of the Q's was Tim, with 66 Q's. This coming weekend there are 3 QSO parties. Laing will be operating this weekend with 3 or more people at the masonic lodge on Willis Street. The most wanted country in the world is Navassa Island, and will start becoming on the air in February. It's been 22 years since it was last operated, and it will be 10 more before it will *possibly* be heard from again. K1N is the callsign to look for and it is an US island, believed to start on the air somewhere around the 1st of February!!! Ginny (KA3PYO) for Membership: We are out of M/S/L size vests and have a very select few left. We will discuss getting an order together by the March Board meeting for discussion. Paul (W1RP) for Repeaters: All repeaters are working. There is noise on the 820. It will be off when he takes the duplexer out for a few days. He will let us know ahead of time, stay tuned for updates. Stella (WB2FAU) for Net Manager/Special Event: Monday night net 147.345 at 7:30. Starting September, if you finish a full month of net control, Stella will give you a pin that looks like a microphone for your contributions. Net control is good until April. March 24th-26th Buckingham special event, at 15191 Homestead Road, Lehigh Acres, FL 33971. We have QSL cards and Certificates to give out for QSL's received. Stella read information about what Buckingham special event is regarding the gunnery. Ralph Houser worked there during WWII as a painter. We are going to operate 10-15-2m0 and 2m and there will be breakfast and lunch all 3 days. Ed Radke (K9GZT) for Greater: No news is good news. Craig (W4CWC) for Webmaster: Frank W4FLS spoke about two banners for Hamfest from December 17th - January 17th online and out of this we had 1,000 visits to our website. Thank you Frank for promoting Hamfest on your own dime and time, it's much appreciated it. The existing website is currently not running so well, the new website is on its way in. He received phone calls from all over the place regarding Hamfest. We have obtained enough data and information so that we can create a mailing list for future events. We took a lot of compliments for the electronic advertising of Hamfest.

Old Business: To quote a few of the members "we did it!" in regards to Hamfest 2015. Tom presented Richard with his blue crystal award. He was not able to attend the annual dinner last year, and so he is being given his award tonight.

New Business: Richard on Hamfest: When you have a good committee it works for you. THANK YOU EVERYONE! Thanks to committee and volunteers. We're going to meet with the assistant pastor on Friday and we are going to try and button up for next year. Jack NY8D expressed that this was the best forum room he's ever been to! Hopefully next year we will be able to use this facility again, and have a better laid out plan. We all had worries about being in the negative, but we succeeded and made a good profit, better than we have done in years. Someone from the Orlando Hamcation committee came down here just for the purpose of seeing what we were doing, and he was very pleased. Dave WG4K on VE testing, had 17 people take tests, and 11 or 12 passed. The Ham from Juno Alaska who won our grand prize, passed his extra class at our VE session. The trademark for Tail Gator is now taken care of and we will have a R in a circle for rights reserved, as a trademark. Anything we print that has the gator on it needs to have this on it. We are going to present a check for \$200 to the church on Friday when they go see them as a thank you for allowing us to use their facility.

Meeting adjourned: 8:21pm
Brittany (KJ4OYP) Club Secretary

Minutes continued on next page....

Secretary Minutes Continued...

Board Minutes February 10th 2015

Meeting called to order: 7:20pm I was late to the meeting.

Attendance: KI4GED, AC4TM, W1RP, W4LWZ, KI4JFN, K9GZT, KC4RAC, W4CMC, KK4SOT, KJ4OYP, KJ4MUY, N3NAI, WT4T, K4WCR, KA3PYO

Treasurer's report: Absent.

Committee reports: Brittany (KJ4OYP) for Social Activity: Getting things together for the annual Picnic, March 28th. Skills Day April 11th. Brittany (KJ4OYP) for Modulator: Was late for February due to personal issues going on. Charles (KI4GED) for Swap Shop: second and last Saturday every month at 11am. Joe (N3NAI) for Field Day / Property Control: There are lots of parts available at the Swap Shop! Come get your missing parts. Larry (W4LWZ) for ALERT: Fema is going to begin making people "Qualify" by taking and passing their tests. Skywarn training class Tuesday March 17th, more info to follow. -- Meeting on the air every Wednesday night except for the 3rd Wednesday when we have our in-person meeting at the NEW EOC in Ft. Myers. - Still looking for new members for ALERT, applications are available. Larry (W4LWZ) for Education: If you are interested, send Larry an email w4lwz@arrl.net - There are 8 people in his current general class. Larry (W4LWZ) for W4LX trustee: "It's still there, still works and the license is still valid!" Paul (W1RP) for Repeaters: On the 820 repeater, waiting for Sebastian to get him the tracking generator. There is a lot of noise on it. We have to be patient before we do things because the county owns it. He renewed all of the repeaters with the FL repeater council. 450 and the 2m one from LCEC, is now going to belong to the club. They were previously under Russ WX4L's callsign. 444.775 repeater. Dale volunteered his callsign WT4T on that repeater. Still has to renew the other two at the EOC. These will expire on the even year, September 30th. For SARNET: Talked to Tallahassee, will not give us an actual date for when this is going on. They have to change all lights on tower climb for new FAA rules. They are going to take off the 2m antenna and put up a 450 antenna. They take care of everything; we will not have access to the repeater. We will need clearance to get into the building. It will be just a repeater connected to the SARNET system in Tampa, open to any ham who wants to use it, but remember it's a party line for emergencies! We are realistically looking at it for before hurricane season. Laing NT4TS for Contesting: CQWPX RTTY contest this weekend. For DX - K1N is a "hoot", anyone who's been listening to it know it's a mess. Craig (W4CMC) for Webmaster: Craig has no active internet right now to get working on the website. The prototype is working currently. The public side of it will use fmarc.org the fmarc.net will be members. When he takes down the old site, we can't have two sites using the same domain name, so we have to do a file redirect on every page. We have all the software we need and everything, he is waiting to get a better internet set up so that he can continue.

Old Business: Richard KC4RAC will construct a thank you letter for Cornwell and Leon for their generous donations to the club. The Hamfest committee will meet at 2:30 NFM Community center for the final wrap up. We met with assistant pastor Steve, who was very impressed with how we left the church and how we conducted ourselves. The original price was \$800, got it down to \$499.95, and this year we are back at the \$800. Although it has to be approved by their board, they don't seem to think there will be an issue. As a token of our appreciation, we donated a check for \$200. We also presented them with a plaque and letter of appreciation.

New business: Larry is going to be Chairperson for Hamfest 2016. Thanks to Laing we have a club table in building 3 of HamCation and he will have the new banner with him. Anyone who goes to Hamcation and can man the club's table for a little while to relieve Larry/Fran please do. He's looking to get a committee together. Hamfest/makers fair? It's a fair for anyone who makes anything, electronics, blankets (afghans), products and their vendors. This was something Miami Hamfest did this year. Prices will be the same this year for 2016. Tickets \$5 for earlybird and \$7 at the gate. The new website has potential for e-store capability like selling Hamfest shirts and ticket handling. On another not the 15m band on the triplexer does not work. It was used this weekend for a contest at the Noah Lodge that Laing and Tim did. The ICE filter works, the tune circuit doesn't work. Laing proposes a motion we purchase a \$399.00 plus shipping, complete triplexer and 3 ICE filters. Then we look at repairing our current triplexer. The board voted on this and approved.

Meeting adjourned: 8:40pm

Respectfully Submitted by
Brittany KJ4OYP

CLUB NOTICES:

2015 DUES ARE DUE NOW

This is a reminder that dues for 2015 are due now. They are coming in slowly at this time. You may make payments online through our club website using PayPal, mail in an application to the club's PO box, or hand them in at Lunch bunch to Ginny KA3PYO / Tom AC4TM, or to Brittany KJ4OYP at any meeting or function our club is apart of. After March 1st 2015, anyone who has not paid dues will temporarily be removed from website access, as well as the club roster, pending payment. Dues are \$20 for a single membership, \$25 for a family memebrship, \$10 for non licenced, and anyone who gets licensed after taking Larry W4LWZ's class get the current year's membership for free. Please get your applications sent in! - Currently Brittany is updating the roster and getting figures together. Hope to see you at the next meeting!! Please see the attached 2015 memebrship application included in this Modulator

2015 SPRING PICNIC IS UPON US!

At the last board meeting it was determined that March 28th, a SwapShop day will be our annual club picnic. We will meet around 12 noon at Paul Sanborn Park as the usual meeting place for lunch. I am asking that anyone who would like to attend, please see me if you want to bring something!!! We need: chips, dessert, potato salad, macaroni salad, condiments, sliced onions and tomatoes. If you would like to help by bringing any of the above, please send me an email at KJ4OYP@hotmail.com, or see me at any meeting between now and then. This picnic is set to start the Saturday AFTER the Buckingham Special Event. Because this is a SwapShop day, we will be opening SwapShop one hour early, at 10am until noon.

SKILLS DAY 2015

We have decided to have a skills Day again this year. It will be April 11th, 2015 at SwapShop starting at 10am, this is also a SwapShop day, so we expect a good turnout. It has not been decided on what events we will be having this year, but all ideas are welcome, and please see Tom AC4TM to sign up.

ANNOUNCEMENT

Thanks to each and every one of you for the help and effort you put forward to make this year's Hamfest the success it ended up being. The date for next year's Hamfest is set for January 15 & 16 2016.

After much discussion (some with his Xyl) Larry Zimmer is hereby appointed as 2016 Hamfest Committee Chairman. Larry has a vast amount of experience with producing Hamfests and was the Chairman for 9 years prior to the 3 recent events. Please join me in welcoming Larry to the Chairman Position and in lending any support he may ask for. Formal announcement will be made at the Feb. Board Meeting, and to the general membership at the Feb General Meeting.

**Tom Muye
AC4TM
FMARC Pres.**

K1N Navassa Island DXpedition is Ham Radio History 2-15-15

The K1N Navassa Island DXpedition wrapped up on schedule early on Sunday, February 15. While some seekers went away empty handed — even after hours of trying to break the massive pileups (and some intentional interference) — thousands were more fortunate. Going into the DXpedition, Navassa Island (KP1) was the second most-wanted DXCC entity (after North Korea) on ClubLog's Most Wanted List. After starting up in the waning hours of February 1, K1N logged 138,409 contacts with 35,702 unique call signs. The final K1N contact was made on February 15 at 1127 UTC. "The last helicopter flight left the island at 1500Z with the last three team members who overnighted to keep stations QRV until the last possible moment," said team member Glenn Johnson, W0GJ, in a K1N media release. "There was an excellent opening to Asia/Oceania almost all day and all night during the last 24 hours. All team members are back safe, healthy and happy in Jamaica."

Johnson thanked DXers who stood by while K1N worked areas of the world into which it has short propagation windows. "The Jamaica Amateur Radio Association members provided valuable support for all phases of our operation," he added. Right after shutting down, the skeleton crew of operators remaining on the island packed and stowed the radio equipment and their gear for the return trip. The US Fish and Wildlife Service (USFWS) oversees access to the small island, and it has indicated that it would not allow any more DXpeditions to Navassa for another decade.

February 4 was the team's most prolific day, with 15,706 contacts. Twenty meters was the money band, with 14,563 CW, 16,895 SSB, and 2498 RTTY contacts. K1N also did well on 12 meters, logging 10,094 CW and 1423 RTTY contacts. The Navassa team even managed 411 phone contacts on 60 meters, and 231 on 6 meters. K1N also was active on the FO-29 satellite.

Logs have been uploaded to ClubLog. A log search engine and more contact statistics are on the K1N Navassa Island website.

HAM ARTICLES

Continued...

The K1N DXpedition team has only been home a few days, but we are slowly recovering from what was a difficult project. It was over too soon considering that it took 15 years to gain permission, plan and execute the DXpedition. The DX world is very complimentary of our results...140,000 QSOs and over 30,000 uniques. This is especially impressive when you consider that we had only had 14 active operators, seven HF radios, five small amplifiers and only four small beams. Many of our QSOs were made barefoot and with dipoles hanging very high on the lighthouse on Navassa. This is what we called a MVC (Minimum Viable Configuration) necessitated by the use of helicopters for primary transport. We have many to thank. The USFWS for allowing our operation after 22 years off-the-air. The terrific team of USFWS officers and biologists who accompanied us and became part of our team. Our sponsors, both equipment and financial, our team of radio pilots, our helicopter crew of Danilo, Nelson and JC, the staff of Moxon's Beach Club, the staff at Ian Fleming Intl. Airport and our new friends, the Haitian fishermen at Navassa. When we departed, they received gifts from us of gasoline, clean water, clothing, food and other items. Hopefully, this will help them in their difficult and dangerous existence. Lastly, we want to recognize and thank a group of 1943 DXers. These people heard and responded to our plea for financial support prior to our DXpedition as this when the majority of our considerable expenses occurred. Last night, these special and generous people had their QSOs with K1N uploaded to LoTW (Logbook of The World). This service was NOT a condition of their contribution, but comes as a completed surprise. Thanks to you all for a memorable experience!

73, The KP1-5 Project
Bob-K4UEE- President

Am I in the Log?

Now that the K1N Navassa 2015 DXpedition is in the record books, you can get your QSL card(s) via the OQRS (Online QSL Request Service). It easy and inexpensive. All you do is provide the QSO information and your K1N QSL card(s) will be sent directly to you. You don't have to mail anything. To use OQRS, just click the link below and follow instructions: Go here: <https://secure.clublog.org/logsearch/K1N%3Cb>

For other ways to get your QSOs confirmed, click the "QSL Info" button above (and on any K1N web-page).

Last month I posted an article from ARRL about paperless licenses. This is the story follow up:

Starting today, February 17, the FCC no longer routinely issues paper license documents to Amateur Radio applicants and licensees. The Commission maintains that the official Amateur Radio license authorization is the electronic record that exists in its Universal Licensing System (ULS), although the FCC had routinely continued to print and mail hard copy licenses until this week.

In mid-December, the FCC adopted final procedures to provide access to official electronic authorizations, as it had proposed in WT Docket 14-161 as part of its "process reform" initiatives. Under the new procedures, licensees will access their current official authorization ("Active" status only) via the ULS License Manager. The FCC will continue to provide paper license documents to all licensees who notify the Commission that they prefer to receive one. Licensees will also be able to print out an official authorization — as well as an unofficial "reference copy" — from the ULS License Manager. "We find this electronic process will improve efficiency by simplifying access to official authorizations in ULS, shortening the time period between grant of an application and access to the official authorization, and reducing regulatory costs," the FCC Wireless Telecommunications Bureau (WTB) said. According to the WTB, the new procedures will save at least \$304,000 a year, including staff expenses. The ULS License Manager now permits licensees to change the default setting so that the Bureau will print and mail a license document.
