

In homage to Sako Hasegawa

FTDX101MP 200W

The Ultimate

FTDX101D 100W

Ref: E0118-18
Date: August 24, 2018

Dear Valued Dealers:

Thank you for your business with YAESU.

We are pleased to announce more detailed information about the FTDX101 series HF+6m transceivers – the **FTDX101MP for 200W output power** and the **FTDX101D with 100W output power**. The latest samples that introduce new high performance technology to Amateur Radio enthusiasts around the world will be displayed at Tokyo Ham Fair 2018.

Both transceivers share the same core features utilizing the latest SDR Technology. A few of the extraordinary features are listed below.

- Superb and Astonishing Close-in Dynamic Range Performance even in today's crowded bands situations
- 9MHz IF Roofing Filter Producing Excellent Shape Factor
- 400MHz HRDDS (High Resolution Direct Digital Synthesizer)
- Hybrid SDR: Direct Sampling & NBW (Narrow Bandwidth) SDR
- Completely Independent Dual Receivers
- High-Q VC Tuning Front-End
- YAESU Renowned Interference Reduction System
- Large Touch-Panel Precision Color Display
- 3DSS (Three Dimension Spectrum Stream) Waterfall Display
- Active Band Indicator with LED illumination of the operating band, enables rapid band changes
- MPVD (Multi-Purpose VFO Outer Dial) provides Sub VFO dial, Clarifier operation, VC-TUNE adjustment, VFO fine tuning or a CS (custom selection) function

Pricing information will be released in an official announcement when we are ready to accept your orders.

Thank you for your interest in this matter. Your continued support for Yaesu products is very much appreciated.
