On the wall at A.R.R.L. Headquarters, over the Secretary's desk, in a glass-covered case, since the days of Tuska, lies the Wouff-Hong. It

THE ORIGINAL AND SACRED WOUFF-HONG which hangs at A.R.R.L. Headquarters where, by order of the Board of Directors, the Secretary guards it with his life.

is a fearful and wonderful instrument of torture. It is old and worn smooth from years and years of use. Every ham in radio, old or young, stands in awe of it. Since the beginning of amateur radio it has meant "The one or the other" — either law and order or the Wouff-Hong, take your choice.
