

## SJRA 2M QSO Party & Repeater Net

Date: 14 June 2016 Time: 00.00 to 01:37UTC

K2AA/100 Repeater, 145.290 MHz, PL 91.5 Hz, FM Mode

SJRA Member: John Fogleboch WY2J

Good evening this is John WY2J your host and control operator for the SJRA 100 Year Anniversary QSO Party and our regular Monday night 2 meter net. This week the QSO Party will precede the net and also provide the call in list for the follow on net. Tonight we will operate the repeater in FM mode only, however on Wednesday night the 15<sup>th</sup> we will repeat the QSO Party on Fusion ND digital mode at 8:00 PM (UTC 00:00) followed by a short session on FM for any who missed it on Monday night. There will be no net on Wednesday. This is a great way to earn the one- time 100 point bonus for working K2AA/100 and an extra mode if you have Fusion digital capability.

The SJRA QSO Party description, rules, scoring and log submission are available from the March 2016 issue of Harmonics or the SJRA web site at: [www.sjra.org](http://www.sjra.org). Submit logs to [log@k2aa.com](mailto:log@k2aa.com) before 22 July 2016.

SJRA members are to use the Exchange, Call Sign/100 + Name while non-members will use Call Sign + Name. Please log your call in time in UTC format. All stations calling in are asked to give a yes or no for participation in the follow on net. Net control will acknowledge each call before proceeding to the next station. K2AA/100 is ready for calls. Please space them out a little.

No.	UTC	Call Sign	Name	Net	Comments
