

SJRA 2M Digital Repeater QSO Party

Date: 16 June 2016 Time: 00.00 to 00:15 UTC

K2AA/100 Repeater, 145.290 MHz, Fusion ND Mode

SJRA Member: John Fogleboch WY2J

Good evening this is John WY2J your host and control operator for the SJRA 100 Year Anniversary Digital Repeater QSO Party. Tonight we will operate the repeater in Fusion ND mode. There will be no formal net tonight. This is a great way to earn the one- time 100 point bonus for working K2AA/100 and an extra mode, Fusion ND digital.

The SJRA QSO Party description, rules, scoring and log submission are available from the March 2016 issue of Harmonics or the SJRA web site at: www.sjra.org. Submit logs to log@k2aa.com before 22 July 2016.

SJRA members are to use the Exchange, Call Sign/100 + Name while non-members will use Call Sign + Name. Please log your call in time in UTC format. Net control will acknowledge each call before proceeding to the next station. K2AA/100 is ready for calls. Please space them out a little.

No.	UTC	Call Sign	Name		Comments
1	00:01	KD2JPV/100	HOLDEN		
2	00:01	N2CPR/100	ART		
3	00:02	WB2EOD/100	ROY
