

Club QSO Party N1MM suggested settings:

Note: N1MM will not be able to score this correctly, don't worry. All we ask for as a summary of your results.

Click on file:

It is recommend to set up a new database, you can use an existing database if you choose.

Click on Contest, and start a new contest using "DX" for general logging

Setup your station data under the Config screen.

Control-O

Operating as the club station enter your club callsign

Operating as your own call sign enter your call.

You can keep the same log because the stations work count as your own.

At the end of the contest count the stations signing /### and those that are not.

Visit our website to see any club stations worked for bonus points. List the bonus stations worked in the submission.

Have Fun!!
